github.com/Aliya-333

SKILLS

- Python, SQL, C & C++
- Pandas & NumPy
- Matplotlib & Seaborn
- Scikit-learn
- Data Cleaning & EDA
- Machine Learning Basics
- Flask & REST APIs
- HTML, CSS, JavaScript (Basic)
- Git & GitHub
- Jupyter, Colab & Excel

SOFT SKILLS

- Communication
- Teamwork
- Problem Solving
- Time Management
- Leadership
- Adaptability
- Critical Thinking

CERTIFICATIONS

- Google Data Analytics Professional Certificate - Google
- Google AI Professional Certificate - Google
- Python Libraries for Data Science - Simplilearn
- Machine Learning for Beginners - Simplilearn
- Deep Learning for Beginners - Simplilearn
- Create Image Captioning Models - Simplilearn
- C++ Programming - G-TEC

ACHIEVEMENTS

- IPR Lead, IEDC - Ilahia College of Arts and Science
- Hackspire Edition 2 (24-hour ideathon) participant, Sept 2026
- State-Level Volleyball Participant

PROFILE

BCA (AI & Data Science) student with hands-on experience in Python, data analysis and machine learning, a data science internship, and a deployed full-stack web project. Seeking internships and entry-level roles as a Data Analyst, Junior Data Scientist, AI/ML Engineer or Software Engineer.

EXPERIENCE

Codemax Digital Solutions

SEPT 2026 · 1 MONTH

Data Science Intern

- Completed hands-on projects in data cleaning, EDA, visualization and machine learning using Pandas, NumPy, Matplotlib and Seaborn.
- Applied Scikit-learn to regression and classification tasks and evaluated model performance.

PROJECTS

PricePrism - Price Comparison Web App

github.com/Aliya-333/PricePrism

Python · Flask · JavaScript · REST API · Render

- Compares a product's price across online stores using the SerpAPI Google Shopping API and highlights the cheapest store.
- Added caching, input validation and demo mode; deployed on Render with the API key kept private.

Student Academic Survival & Dropout Prediction

Python · Pandas · Seaborn · Scikit-learn

- Analyzed 79,000+ student records; compared Logistic Regression (72.8% accuracy, 64.7% dropout recall) with Random Forest (90.8% accuracy, 24.2% recall) on imbalanced data. Top predictors: semester GPA, financial stress, work hours.

Sales Data Analysis

Python · Pandas · Matplotlib · Excel

- Cleaned and analyzed 1,709 product records (340 unique products, 7,880 units sold) to find top products by sales and quantity.

Student Performance Analysis & ML Mini Projects

Python · Seaborn · Scikit-learn

- EDA with a correlation heatmap; built a Linear Regression score predictor and a Decision Tree Iris classifier.

EDUCATION

Bachelor of Computer Applications

2025 - 2029

Ilahia College of Arts and Science | AI & Data Science

2nd Semester: 82%

ISC (12th) - Bio-Maths

2024

Infant Jesus ISC School | **Percentage:** 76%

ICSE (10th)

2022

St. Joseph's English Medium School | **Percentage:** 89%
